

Water 2018 CDP SCORE REPORT

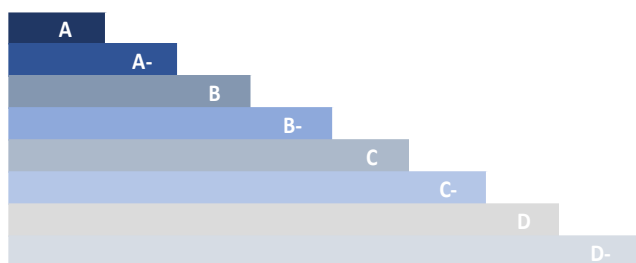

OVERVIEW

The CDP Score Report allows companies to benchmark and compare their progress towards water security against peers, in order to continuously improve their water governance and stewardship. The score achieved by each company is comparable to companies from its region and sector, and investors will additionally receive a copy of the CDP Score Report.

COMPANY PROFILE

POLİSAN HOLDİNG A.Ş.

Region	Europe

YOUR CDP WATER SCORE

AWARENESS C

Sector average: C

Regional average: C

Understanding your CDP score. Your Scoring Level (Disclosure, Awareness, Management, Leadership) demonstrates your company's level of water stewardship, and your actions and approaches in managing water.

POLİSAN HOLDİNG A.Ş. has received a score of C which is within the AWARENESS band. This is EQUAL to the Chemicals average of C, and EQUAL to the Europe regional average of C.

CATEGORY SCORES

Scoring categories are groupings of questions and are subgroups of the 2018 questionnaire. Weightings are applied to scoring to reflect the relative importance of each category to progress water stewardship. The weighting applied to each category varies across sectors to highlight the areas most important to environmental stewardship in specific sectors. Please note that it is not possible for a category score to be higher than a final score. To find out more about category weightings for each sector, download the 'CDP Scoring Categories and Weighting' documents [here](#).

The Introduction and Verification categories have not been included for category score breakdown as they are not scored at Management and Leadership levels.

Water 2018 CDP SCORE REPORT

FEEDBACK FOR POLISAN HOLDING A.Ş.

BASED ON YOUR CATEGORY SCORE

- **WATER ACCOUNTING:** *Next steps - increase the amount of sites, facilities or operations that are monitored to at least 25% for each applicable water aspect.*
- **RISK ASSESSMENT:** *Next steps - carry out a frequent risk assessment where several stakeholders and contextual issues are included in your company's water-related risk assessment process.*
- **TARGETS AND GOALS:** *Next steps - have company-wide targets and goals which are monitored at the corporate level and demonstrate progress against them. Ensure there is a robust approach to setting and monitoring targets and goals is in place.*
- **GOVERNANCE:** *Next steps - have board level oversight of water-related issues and management-level responsibility for water-related issues below board level.*
- **WATER POLICIES:** *Next steps - have a water policy, publicly available or not, that comprises commitment beyond regulatory compliance, recognition of the environmental linkages, for example, due to climate change, and acknowledgement of the human right for water and sanitation.*
- **VALUE CHAIN ENGAGEMENT:**
- *Next steps - have a robust engagement procedure that includes the outcomes and measure of success of the engagement with the most relevant partners of your value chain.*

TRENDS IN WATER STEWARDSHIP

ACHIEVING A WATER SECURE FUTURE

- *Verify and assure your water security data;*
- *Explore water valuation options, e.g. setting an internal price for water;*
- *Actively consider water-related issues in the development of possible future scenarios and in the use of scenario analysis.*
